- *“Very enjoyable course”*
- *“Very good day ☺”*
- *“Very good, thank you”*
- *“Very informative, well pitched with credible speakers who presented very well”*
- *“Enjoyable training”*

The feedback suggests that all trainees thoroughly enjoyed the learning and found it very useful. It is apparent that people in recovery delivering this type of awareness training was a definite plus point and is picked up within the report. Both trainers and learners interacted and the overall aim of increasing knowledge of substance misuse and related issues was achieved.
