Q3, overall I thought that the delivery of the training was...

As you can see above the overall thoughts as to the delivery of the training given was considered to be excellent; with **100%** stating it was **excellent**, with no one rating it from **good** to **ok**.

Not a single learner found it to be okay, poor, or very poor.

Below are the answers to Questions 4-8 on the SUIE Evaluation Form. As you can see the training has gone down well with positive feedback.

4. I have learned or enjoyed...

- Finding out about relevant services that will be useful to pass onto families.
- Personal experiences shared by the trainers.
- Differences between drugs.
- Having grown up in an area where drugs were only just beginning to emerge and never crossed my path. I have learned about identifying drugs and the effects of drug abuse.
- All of the training.
- The contents, all sections especially how to identify the substance.
- The training has given me a greater understanding of drugs and drug paraphernalia, I have also learned a lot.
- About the services available for addicts.
- Lots about different drugs, the effects and the support available.
- I have learned a lot about things that before the training I didn't have a clue about.
- Personal testimonies, learning about progression from one way of taking drugs to a more serious degree.
- Learning from people who learnt through experience. I feel they really know what they are talking about.
- Greater understanding of drug misuse and awareness.

6. It would have been better if...

- Longer - longer more chats with substance user gain to insight into why, how, when and what.
- We could have actually seen and smelled real drugs!!!
- No comment x 10.

7. In the future, I would like to know more about...

- Different types of services available for substance abuse.
- The smell of the substances.
- What drugs are most used in Wolverhampton and in low hill as this is our catchment area.
- How we can work together for families. Holding sessions within our children's centre.
- More support services and maybe visit a support session.
- Psychological issues involved, impact on the families.
- No comment x 6.

8. Any Other Comments?

- Excellent training, thank you for sharing your stories.
- A life learning course, you never know when this information will be useful.
- Listening to the service providers has opened my eyes to how drugs users feel and made me look at things differently.
- The smell of the substances.
- Thank you - fantastic training.
- Very informative.
- Very good session.
- I thought all of the training was good and all of the advice and services was good to.
- It was really brave and uplifting to hear your stories and I do wish you both well in the future and I hope Paul eventually reaches a stage where he can relax more and enjoy a life that does not totally rely on support and dependence on SUIT.
- Thank you very much, enjoyed it.
- Thank you a very informative and valuable afternoon. Look forward to signposting clients to your service in. The future.
- No comment x2.
